Hi Pam...I know our teams are still working together on securing routes for egress and entrance to the Ambassador Bridge, as well that there is on going police activity. I just received a request for media comment from our headquarters advising that Canadian authorities (also mentioned on CBC) intend to open the bridge today...are you able to confirm if the police have advised the media of this?

Just on a zoom. We advised we are working to open bridge and Huron church road as soon as possible.
